R & R
Rice & Rice Fine Furniture

Rice & Rice Fine Furniture was founded by Miles Jason Rice with the vision to create timeless yet unexpected pieces of design furniture, created with honesty and appreciation for the material, the crafts and the design.

Following in the footsteps of the artisan-craftsmen of the British isles, Miles is a self-taught furniture designer, whose mantra is: "You cannot teach passion." This allows Miles to take inspiration from traditional designs and manufacturing processes, whilst allowing him to push far beyond these to create his very own visual language.

The first major series of works designed by Miles was a collection of coffee and dining tables design that is pushing the boundaries not only of craftsmanship but also of table design. This collection clearly shows the key sources of inspiration for Miles. He draws inspiration from the beauty and specific properties of the materials. Equally important as a source of inspiration is modern architecture and art, especially installations and sculptures that play with the characteristics of the materials. Thirdly, Miles is a strong admirer of craftsmanship, working with selected masters of their crafts to develop and produce his designs. These very different sources of inspiration create a fusion of craftsmanship, the beauty of the material and creativity.

The unique design of the Sculptura dining table was recognized at the 2019 Best Of Year awards of the Interior Design magazine, one of the most prestigious awards in interior and furniture design, as an Honoree.

Augusta Dining Table

R & R
Rice & Rice Fine Furniture

The Augusta reinterprets the classic dining table. Representing the generations before us, the design seems to grow from an invisible root. The table legs are oriented to this common core, reaching up to hold the book-matched tabletop. Solid European walnut wood was selected for its meaning of wisdom and growth. We use wood usually discarded by furniture makers for its challenges to work with. The knots, the cracks, the wind shakes and the unique swirls tell the story of the tree's life. We showcase the uniqueness of the wood to let this story live on in a piece of family heirloom furniture.

The new is always built upon the past.

Chester Dining/Centre Table

R & R
Rice & Rice Fine Furniture

The Chester combines luxury with a grounding sense of nature. Like marble, wood has truly unique markings. These markings tell the story of the tree they have been cut from. It is the story of seasons changing, storms and other events in the lifetime of the tree, which make each table a one of a kind piece. The Chester is a celebration of the natural beauty of the material, combined with a unique design taking references from architecture and finished to the highest levels of craftsmanship.

In a hospitality as well as in a residential setting the Chester welcomes guests with a design that is creating a refined lightness and grounding calmness at the same time. The rich and elegant look of the natural material gives a sense of home, of a family heirloom piece that has been built to last.

The Chester Royal is part of the Royal Collection, which was created to bring one of the most prestigious and luxurious crafts, gold-gilding, to the home and to hospitality settings.

Gold-gilding has been used for centuries for sculptures, decorative objects and architectural features to show power and wealth. Gold is the symbol of influence and prosperity across the globe. For the Royal Collection, thin leaves of 23.5-carat gold are applied to the table legs of our Sculptura Chester dining/centre table. Due to its exclusivity, the Royal Collection is limited to 10 pieces of each design.

For the Royal Collection, Rice & Rice Fine Furniture is working with some true masters of their trade. Master carpenters have been specially selected to deliver the best quality possible when creating the tabletops from book-matched American walnut and when sculpting the table legs by hand. Sculpted wood has been traditionally used to create decorative objects and sculptures. Oftentimes, these were later on gold-gilded to create a more regal and glorious impression. The Royal Collection combines these 2 crafts to create stand-out pieces of furniture that are elegant decorative objects in their own right whilst being fully functional as pieces of furniture.

Gold leaf gilding is a time-intensive process that requires true mastership and dedication. In a multi-step process thin leaves of 23.5-carat gold are expertly applied by hand. The warm shine and colour of gold leaf gilding remain unmatched by other methods of gilding.

Illuminous Dining Table—Long

R & R
Rice & Rice Fine Furniture

The Illuminous long dining table is part of a collection, which takes name from the hand-crafted brass table legs that seem to glow from within. This is achieved through light shining through a cut-out in the marble tabletop. The material properties of the brass allow the light to reflect and shine through the opposite table legs, creating a halo effect at the base of the table, also made from marble. The tabletop and the foot of the table feature a brass edge to visually marry the different segments of the table.

For the Illuminous Collection, some of the most beautiful and rich types of marble were selected to complement the glow and the material properties of the brass, Noir St Laurent marble, Nero Marquina marble and Black & Gold marble.

Ræran Dining Table

R & R
Rice & Rice Fine Furniture

The Ræran dining table is a new take on the classic 4-legged rectangular dining table. The name stems from the old-English word for raise, set upright or begin. The hand-sculpted table legs are rising up diagonally to carry the book-matched tabletop. The traditional craft of book-matching is usually found in the veneer of high-quality antiques. For the Ræran solid wood has been book-matched to create the elongated tabletop shape. The lines of the Ræran are sleek and long, creating a modern, yet classic look.

Sachsen Dining Table

R & R
Rice & Rice Fine Furniture

The Sachsen dining table features an architectural design. The table legs are hand-sculpted from solid wood and are elevating the book-matched tabletop, similar to the elevation seen in architecture, such as in exposed ceiling vaults.

The Sachsen dining table represents our family ties, as both our English and our German part of the family are from regions heavily influenced by the family of Saxe(Sachsen)-Coburg and Gotha, the reigning British Royal family.

Our business could not have been created if it wasn't for the support and inspiration of our family. To honour this strong bond and commitment, we named the company Rice & Rice Fine Furniture and are showing our appreciation in the Sachsen dining table.

Sculptura Dining Table

R & R
Rice & Rice Fine Furniture

Sculptura is non-conformist at its core. Its beautiful hand-sculpted curves and streamlined shape make it a sophisticated piece of art. The crafting of each table requires 2 very specific skills, the traditional book-matching technique for the tabletop and sculptural carving for the table legs. This also gives this unconventional dining table its name.

Sculptura Dining Table

Dimensions

Coffee / Cocktail Tables

Mirar Coffee/Cocktail Table

R & R
Rice & Rice Fine Furniture

As if grown from a tree with bark of pure gold, the Mirar coffee table celebrates the brilliance and the allure of nature. The 2 pieces of richly featured American walnut hardwood, cut from the same tree are joint again to create the book-matched tabletop. Like the wings of a butterfly, the book-matched tabletop creates the illusion of a mirrored image. Craftsmanship and dedication, as displayed in the intricate bow tie inlays and the 23.5-carat gold-leaf-gilding, are applied to enhance the intricate details of the wood and to celebrate the tree's unique story.

Winchester Coffee/Cocktail Table

R & R
Rice & Rice Fine Furniture

The beauty of the wood and the sculptural design form a harmonic synergy. Taking its inspiration from Winchester Cathedral's Gothic architecture, the Winchester coffee table features hand-sculpted wooden legs, crafted with care and dedication. This table design is both, classic and modern at the same time. The tabletop features a book-match or a double book-match design, depending on the table size. This is not only pleasing for the eye but also draws attention to the natural grain of the wood.

The Winchester is available in a hexagonal shape with 4 legs or as a round coffee table with 3 legs.

Winchester Coffee/Cocktail Table

Dimensions

Round: 47"W x 47"D x 17"H / 1.2mW x 1.2mD x 0.42mH
